Where do I need to fetch the data from, is this using webport, smartconnector or just directly from a sensor? Is there anyone I need to liaise with.
Thanks

We will fetch most of the data from webport and smartconnector, and probably also some data directly from sensors. We will discuss this more in coming ESUDA sprint meetings.
Andreas Hedlund, andreas.hedlund@skelleftea.se, will know more about smartconnector, and Johan Stenlund, johan@leosol.se, about WebPort.
Contact after ESUDA meeting.
